Subject: FW: San Jacinto Maintenance Thursday
Date: Wednesday, March 30, 2016 2:14:35 PM

Gary – Please see below on the final maintenance in the two deep water spots of the eastern cell at San Jacinto – each are about 1 ft x 1 ft, but we needed a larger vessel to get to them safely.

Holly will also be performing a check on the security camera system while she is out there tomorrow.

I'm running down the information on the buoys that you asked for earlier today and will get back to you as soon as I can.

Thanks,
David

Subject: San Jacinto Maintenance Thursday

Hi David and Wendell,

I just talked with Robert about the maintenance work tomorrow. We're going to meet at the Site at 10:00 AM on Thursday to finish adding armor rock to the two remaining locations. I'll keep you both in the loop on progress and any schedule changes that may come up.

Holly Samaha
